2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor suggest the disk drive as claimed, wherein the disk drive comprises first and second disks with the first disk having a plurality of first disk through apertures adjacent to an inner diameter of the first disk, the first disk through apertures being circumferentially spaced-apart and extending longitudinally through the first disk; a disk spacer positioned between the first and second disks, the disk spacer having a plurality of spacer apertures circumferentially spaced-apart and extending longitudinally through a portion of a thickness of the disk spacer; and a disk clamp adjacent to the first disk, the disk clamp having a plurality of clamp through apertures adjacent to an outer diameter of the disk clamp, the clamp through apertures being circumferentially spaced-apart and extending longitudinally through the disk clamp, wherein the first disk through apertures, the spacer apertures, and the clamp through apertures are aligned for allowing airflow to pass through the apertures when the plurality of disks are rotating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
